

**The UK Population Medicine Summer Research Program (PM-SRP) Application Form - 2019**

Submission of this application form certifies that you will not be working another full-time activity during the period of time that you will be involved in this research program. All materials are due by 5pm on Monday, March 18, 2019. Late or partial applications will not be considered. Email this completed form and other required submission materials to [karen.roper@uky.edu](mailto:karen.roper@uky.edu).

Applicant's Name: \_\_\_\_\_

Applicant's Address: \_\_\_\_\_

Email: \_\_\_\_\_ Phone # \_\_\_\_\_

Mentor's Name: \_\_\_\_\_ UK Department: \_\_\_\_\_

Mentor's Email: \_\_\_\_\_

Mentor's Phone # \_\_\_\_\_

*Note:* Your mentor can be any faculty member at UK, so long as they agree to guide you through a project that falls within the broad interest areas of family and community medicine research. These are listed on this application form under the description of the essay requirements, relevant interest areas.

Have you worked with this mentor before? If yes, what was the nature of your collaboration?

**APPLICANT REQUIREMENTS:**

I am a UK medical student who is in good academic standing and am applying between my first and second years of study. By checking this box, I understand that my acceptance to the PM-SRP program is contingent on approval from the UK Office of Medical Education Progress and Promotions committee.

A letter of support from your identified mentor is required for this application. Check this box if the mentor has been asked for this letter to be sent to [karen.roper@uky.edu](mailto:karen.roper@uky.edu), and that the due date, March 18, 2019 has been made clear to the mentor.

A resume has been submitted with your application. Past research experience(s) must be included.

A one-page essay has been submitted with your application.  
This essay should be double-spaced and describe:

1. Your interest in population/primary care–based research. The following areas of research and investigation are broadly reflective of the interests of the PM-SRP. Please indicate in your essay which interests among these, or others, you would most like to gain as a PM-SRP recipient.
  - Patient-centered Outcomes research
  - Community-engaged research
  - Public health
  - Practice-based primary care
  - Quality Improvement
2. What qualities/experiences make you a good intern candidate?
3. What do you hope to gain and accomplish from the PM-SRP.

NOTIFICATION:

Fellow(s) will be notified of their acceptance by the second week of April.

OBLIGATIONS:

Student(s) may not participate if they have other obligations that will cause a major interruption in the program. Unless alternative dates are approved by both the supervising mentor and the PM-SRP program officials, the fellowship must be completed during the dates of Mon., May 28 — Fri. July 26, 2019. A total of \$1500 for the PM-SRP will be distributed to fellow(s) based on an hourly-work basis as a STEPS employee.

If accepted, I commit to present the results of my research to Population Medicine department faculty and staff at the end of the program. I also will be required to submit the project to the UK Center for Clinical and Translational Science's Spring research showcase (another acceptable research conference may be substituted).

I will or have already completed the required CITI training in the protection of human subjects required by the UK College of Medicine prior to starting my research, unless my research is exempted.

I understand that stipend distribution will occur following application to be a STEPS employee of the University.

**Acceptance of the stipend will be contingent upon fulfilling all obligations agreed to on this form.**
